Unit Name: Unit 3- Infographics

Unit Description: An Infographic is visually interpreted information that makes complex information simple and clear while also being aesthetically pleasing. Create an Infographic that gives more clarity and information about one of the real client’s projects. Use strong graphics, typography and symbols to express the concept.

Research and Sketchbook Planning:

Use the following [wiki page](#) to discover what Infographics are and how they are used in Business. Develop an understanding of how to create your own infographics. Now that you've done some research on how to make an Infographic and what makes a successful graphic you will begin to develop your own ideas for this project.

- Create visual journal and [wiki pages](#) to illustrate your research and planning.
- This page and your sketchbook visual journaling will all be part of your research.
- You will be using your choice of software (Adobe Illustrator, Photoshop or InDesign) to design your infographic.
- The size of the graphic will depend on which project you choose.
- Create a wiki page here that includes your final written artist statement presenting your Infographic to the class.
- Post the infographic on the wiki page in a size that is easily viewable for class critique.
- This wiki page with the embedded graphic and artist statement is your final exam.
- Please note that there are additional artist statement questions you are being asked. See the website for the Exam Statement Requirements.

You will choose one of the Infographic Projects from the Menu of choices here. Each Infographic has a real client in the Pewaukee School District for whom you will be designing.

- Part of the assignment is to gather as much information as possible about the topic. This may include interviewing the teacher, administrator or students involved in the project.
- You may also Google search to see if there is any local news information about the subject.
- Lastly you will start to pull together the key elements of the topic and develop full color thumbnails of your project.
- Use your Visual Journaling techniques to guide your process. I will expect to see your visual journal pages as part of what you turn in for the final credit for this unit.
- Reportable standard 1 and 2 will reflect not only the final Infographic, but also the Visual Journal pages you develop to plan your Infographic.

Use my [Pinterest Board On Infographics](#) to develop your idea further.

See the wiki and class website for more details.
